

ACP CHAPTER MEMBER ENGAGEMENT OPPORTUNITIES

As a member-driven organization, ACP's goal is to engage all members to take an active role within ACP both nationally and locally. We encourage all chapters to develop opportunities for activating members to get involved and stay connected through participation at the local level.

Chapter involvement is an opportunity for internists to give back to their community, take part in educational opportunities, help influence state legislation, and network and learn from the experience. Explore the many ways to get involved with chapters. There are opportunities for all levels of expertise, no matter how much or how little time you have to commit. By volunteering with your local Chapter, you can help develop innovative solutions that will serve our IM community well into the future. We are looking for interested, committed, passionate members who are willing to contribute towards a vibrant and diverse chapter serving the needs of our members.

Opportunities can range from one-time tasks to committee involvement or Governor's Advisory leadership roles. Volunteer roles differ among chapters, so the first step is to contact your Chapter and ask how you can get involved! Log into [MyACP](https://www.acponline.org/myacp) (<https://www.acponline.org/myacp>) to access your Chapter Web site.

Micro Volunteer Commitment = several hours

Recognize your peers

- Nominate colleagues for national and local awards
